

Dorner Optimize

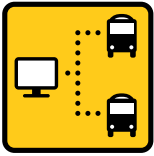

GET IT RIGHT

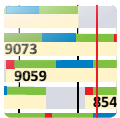

DornerOptimize must include everything that builds confidence in a demanding job. That is our contribution to optimized, reliable dispatching. The mind must be kept clear for the essentials.

Andreas Dorner, CEO, Dorner Electronic

DornerOptimize

The new user interface provides all key information at a glance. Optimized dispatching, straightforward distribution.

OPTIMIZE

- Optimization of production and transport costs
- Conditions change, reaction in real-time

BUSINESS INTEGRATION

- Implement business processes clearly
- Central interface management
- Detect and avoid problems at an early stage

TELEPHONY

- Contribution to quality assurance by means of call logging
- Straightforward interface to all common telephone systems

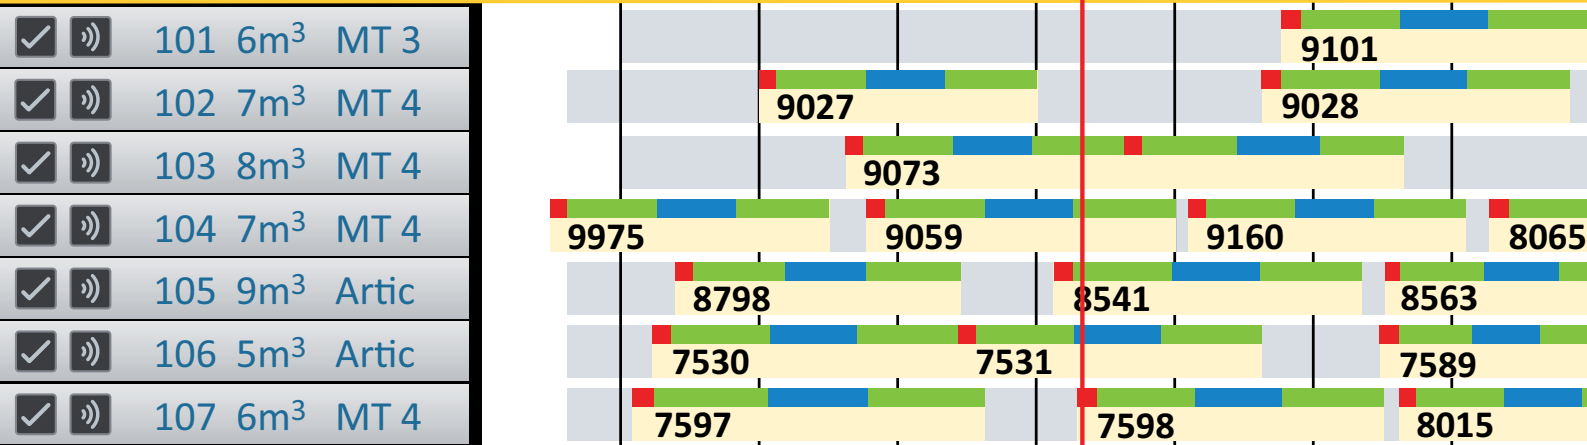

TELEMATICS

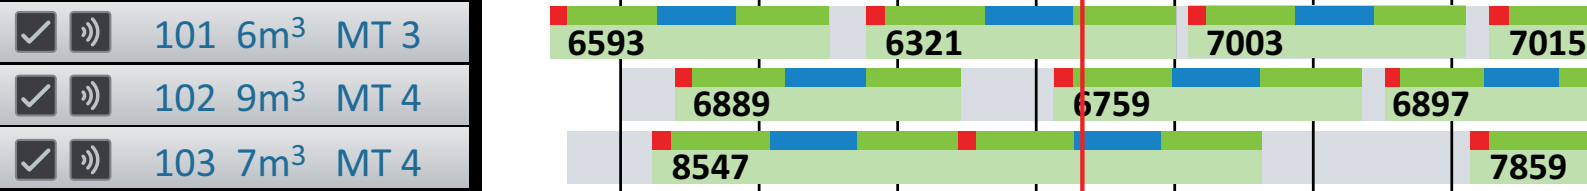

- Automatic status acquisition via GPS tracking
- Live map display on a wide range of terminal devices

Good reasons for **DornerOptimize**

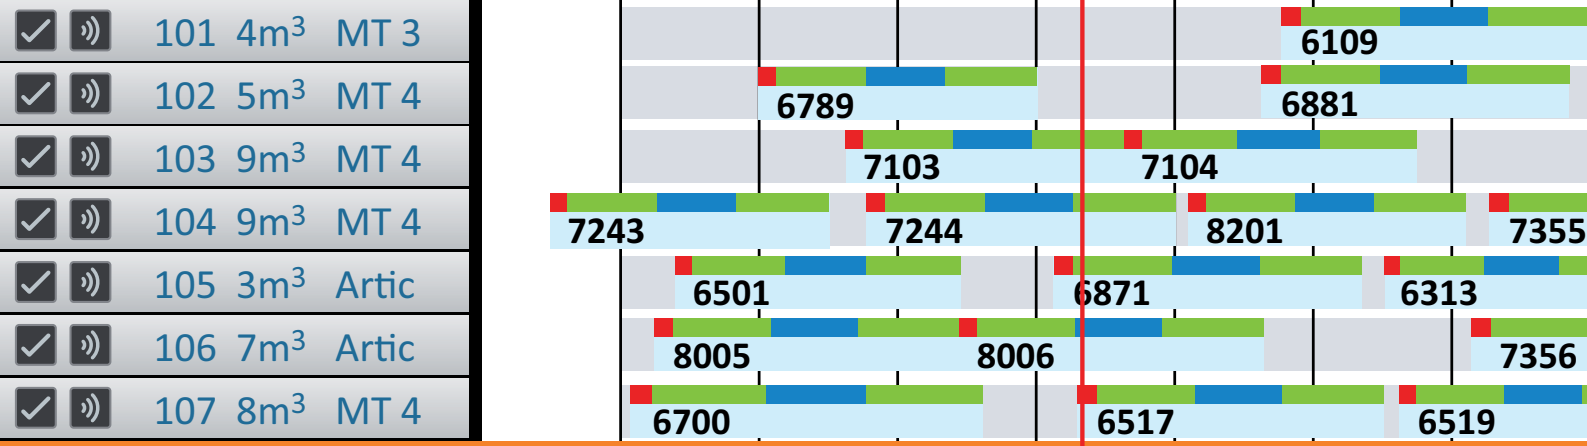

101 - Longford

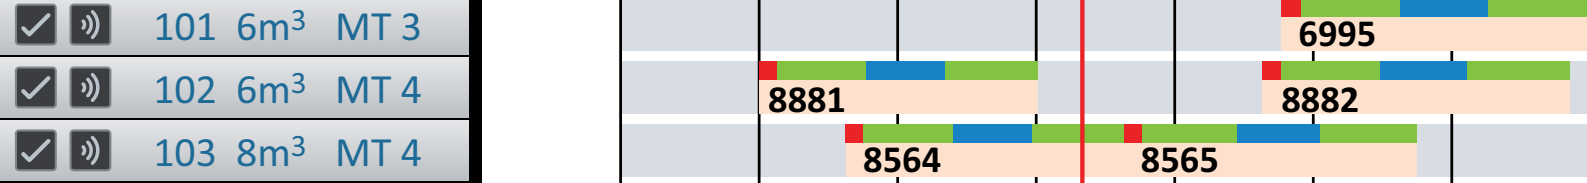

102 - Foleshill

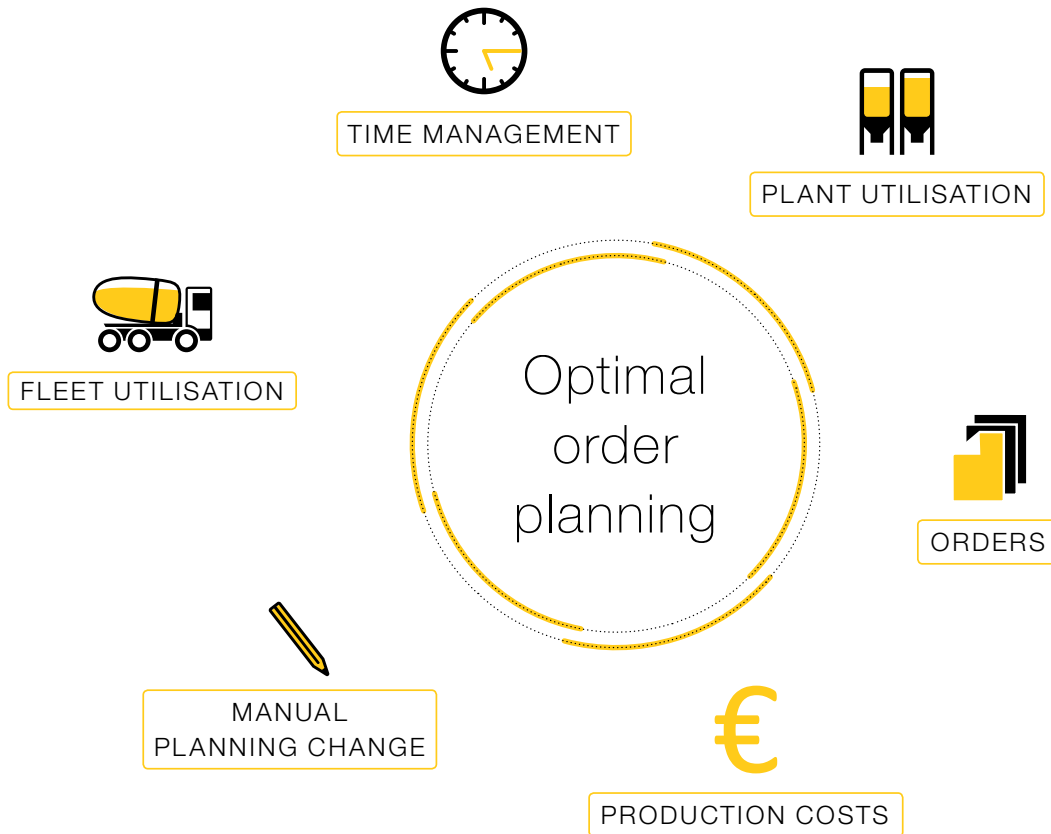

103 - Bedorth

104 - Allesley

TRANSPARENCY

- Traceability of the optimization
- User-specific evaluations by means of continuous selective logging

DRIVING TIME

- Implementation in accordance with applicable EU directives
- Online interface to vehicle tachograph

Time for optimization!
