

Dorner Connect

**VALUABLE
INSIGHT**

The aspiration of DornerConnect is to create a space for straightforward, informed analyses and functions. Apps you will be happy to use with complete trust – every day. Valuable information on various areas connect working worlds under one roof.

Andreas Dorner, CEO, Dorner Electronic

DornerConnect

DornerConnect makes it possible to access important production data – reliably, easily and across plants, the basis for valuable insight. Harmonised Apps for different situations are available on tablets – individually or as a set, independent of platform, time and place.

TOTAL WATER

- Detection of irregularities in water management
- Information on quality problems (concrete strength)

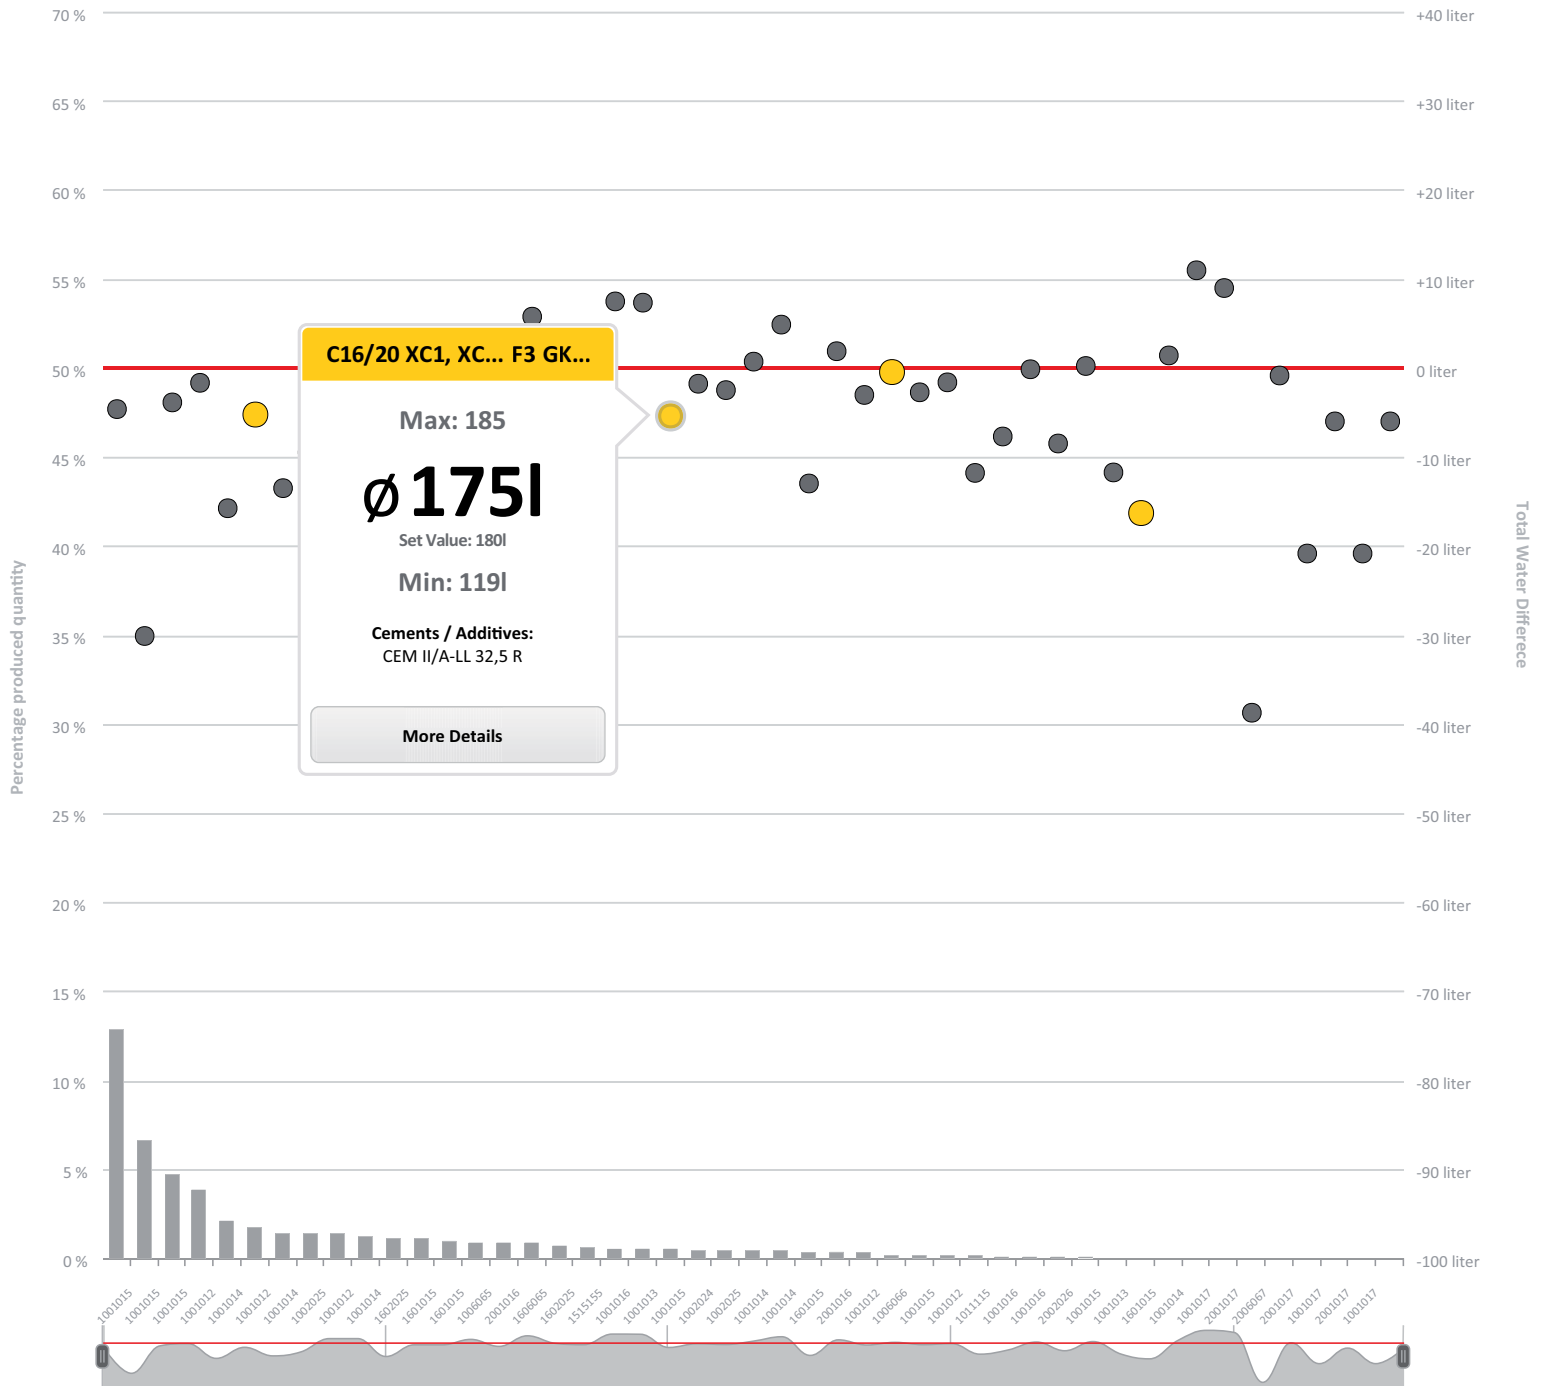

DOSAGE

- Comparisons of set values and actual values for the dosage
- View of the plant state (feeders)

Overview

Mark

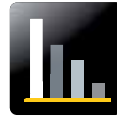

more Apps to come → www.dornerconnect.com

MATERIAL BENCHMARK

- Cross-plant comparison of materials used
- Data for material usage optimization

QUANTITIES OF CONCRETE

- Ranking for concrete specifications
- Valuable sales advice
- Approach for increasing earnings

CONSISTENCY

- Comparison of the consistency test data with the values indicated
- Permits straightforward calibration

MOISTURE MEASUREMENT

- Straightforward check on the manual data
- Monitoring of moisture probes
- Calibration via moisture test measurements

RECYCLED WATER

- Comparison of actual and possible recycled water
- Indication of limitations (temperature)

VOLUME

- Check on the dispatch accuracy per recipe
- Information on the function of the plant

DornerConnect – Connecting worlds

Platform-independent for all tablets (Apple/iOS, Google/Android, Microsoft/Windows)
