

# Dorner Optimize

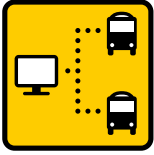

**GET IT RIGHT**

DornerOptimize includes everything that builds confidence in a demanding environment. That is our contribution to optimised, reliable dispatching. The mind must be kept clear for the essentials.

Andreas Dorner, CEO, Dorner Electronic

# DornerOptimize

The new surface provides all key information at a glance.

Optimised dispatching, easy distribution.

## OPTIMISE

- Optimised production and transport costs
- Conditions vary, response in real time

## BUSINESS INTEGRATION

- Clear implementation of business processes
- Central interface management
- Identify and prevent problems at an early stage

## TELEPHONY

- Contribution to quality assurance through voice recording
- Simple integration of all common telephone systems

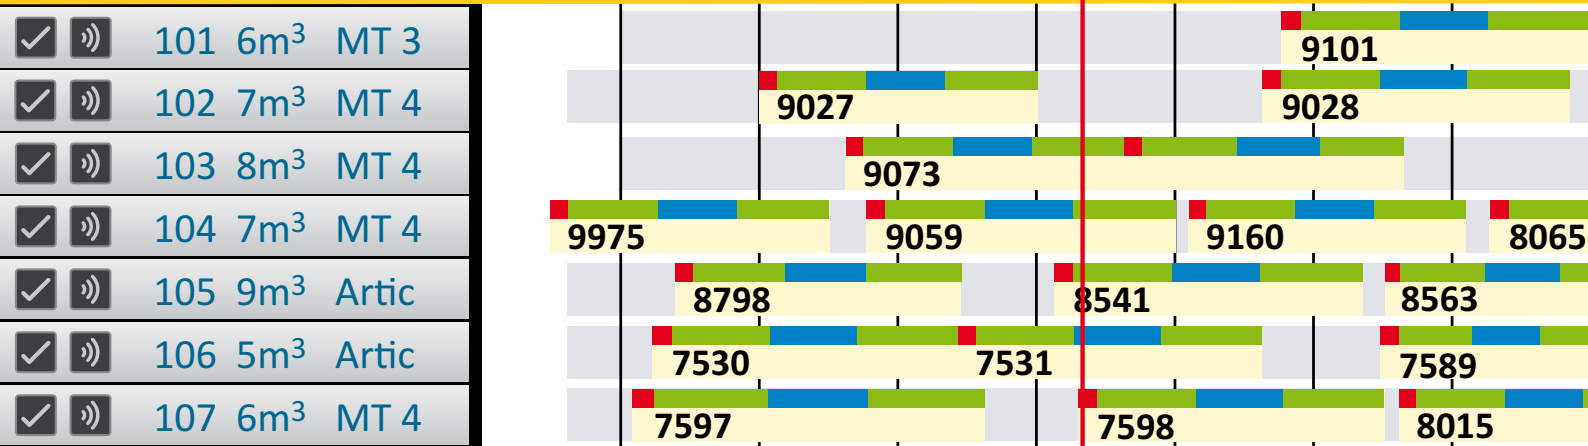

## TELEMATICS

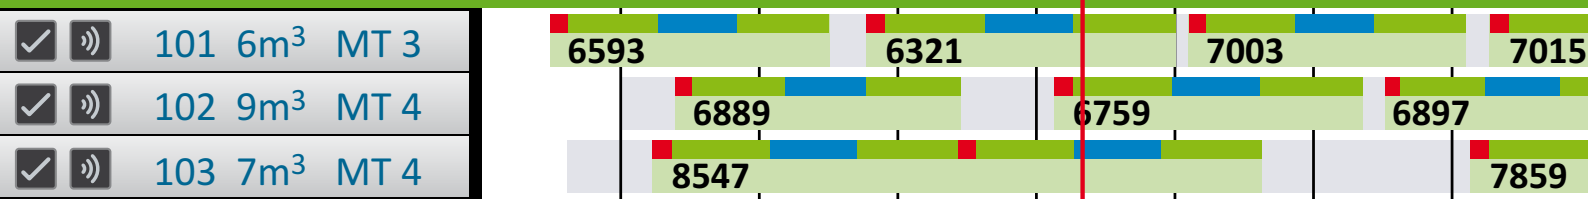

- Automatic status acquisition via GPS tracking
- Live map display on various end devices

Good reasons for **DornerOptimize**

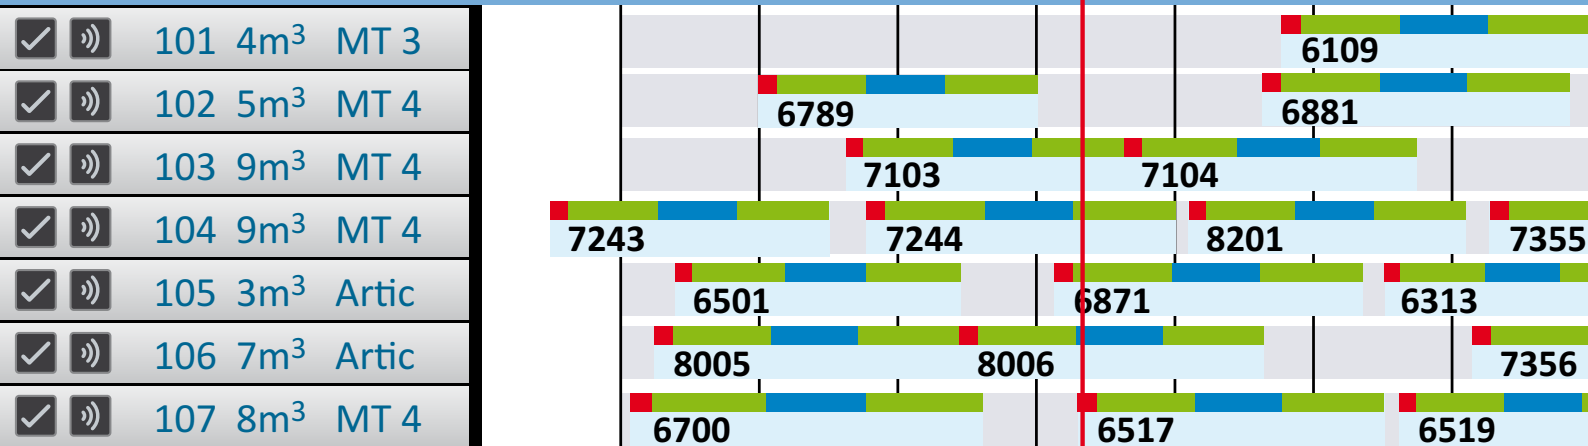

### 101 - Longford

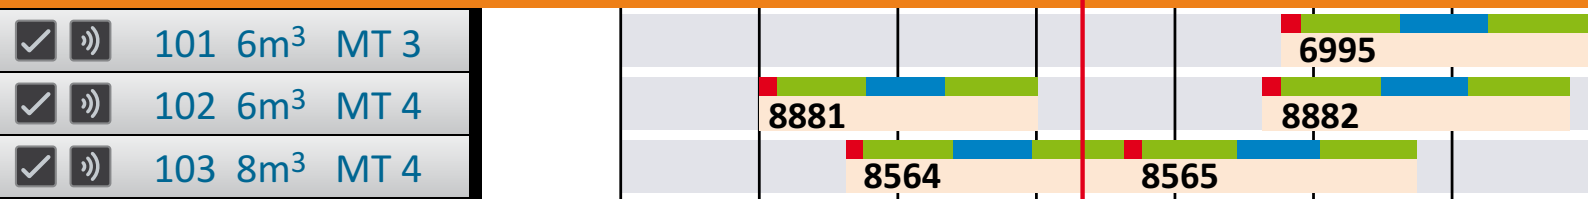

### 102 - Foleshill

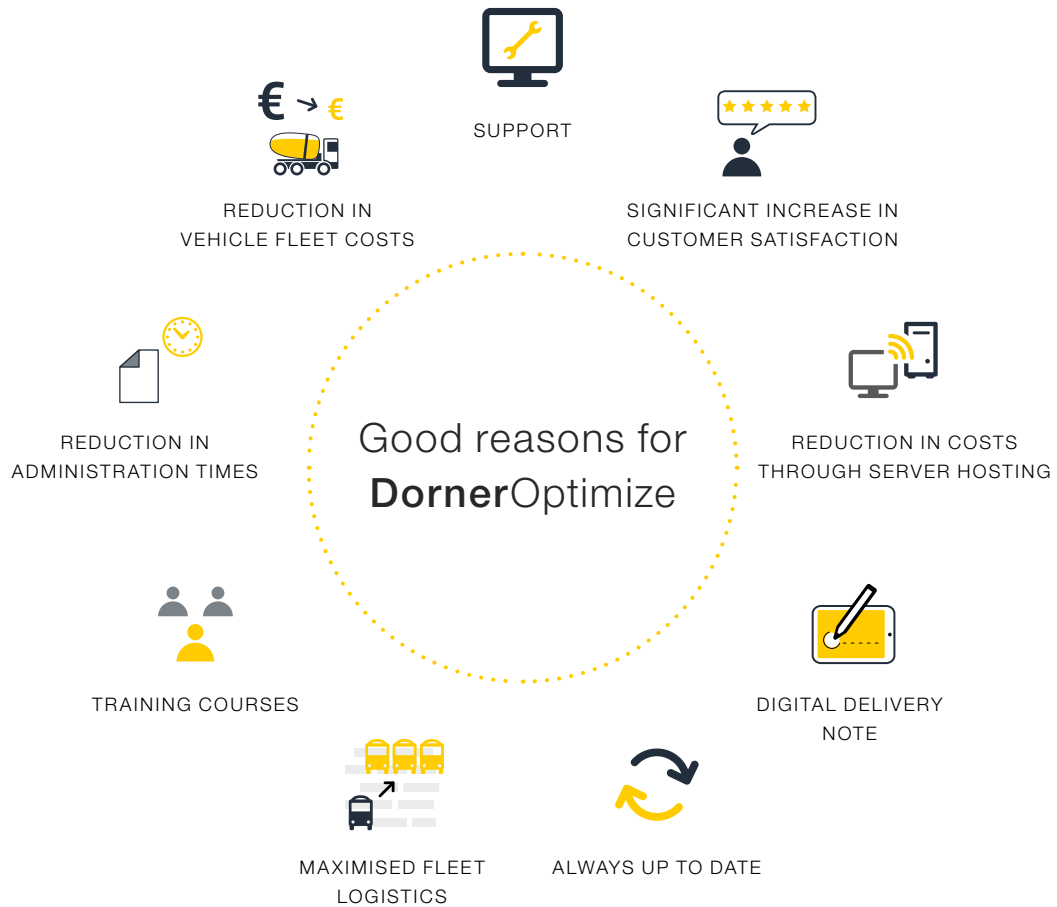

### 103 - Bedorth

### 104 - Allesley

### TRANSPARENCY

- Traceability of optimisation
- Customised evaluations through continuous selective logging

### DRIVING TIME

- Implementation as per EU directives
- Online interface to the vehicle tachograph

Time for Optimisation!
